### What's in the box?

- Faleemi Weatherproof WiFi Security IP Camera
- WiFi Antenna
- Power Adapter
- Network Cable
- Mounting Screws & Plugs
- Hex Key
- Weatherproof Connector
- Quick Start Guide

#### Download the Faleemi APP (Android / iOS) before doing the setup

Connect your mobile device to your WiFi and download the App "Faleemi" from the App Store or Google Play store, or scan below QR code to download it.

- Please use the included Ethernet cable to connect your camera to your router before performing the setup. After the camera is connected to your WiFi, you can relocate it to where you want. You just unplug it and move it to the new location and plug it in, it will connect to your WiFi automatically, no need to set it up again.
- Please make sure your phone is connected to your 2.4GHz WiFi (not cellular data and 5GHz WiFi) before doing the setup. Your 2.4GHz WiFi name (SSID) must be different from your 5.0GHz one.

Please make sure your WiFi name and password do not have the special characters " & " and " ' "(apostrophe).

If you are not sure, please go to your router settings to find this out.

#### Note: THIS WILL NOT AFFECT THE 5GHz WIFI USE OF YOUR OTHER WIRELESS DEVICES :)

- If you don't know how to go to your router settings, please visit our website www.faleemi.com/blocks/router to find the instructions
  or contact us at support@faleemi.com.
- If you don't see the green light (), please do a "Factory Reset." This process is outlined on Page 23 of this manual. ("1. How to reset your camera (restore to factory default)?").

Now, please follow below instructions to get your camera set up.

#### Setup Option A: Step 1 / Add the cameras via Lan Search
